

15 Things to do this Weekend (Nov 7- Nov 9)

Some strange weather ahead. On Friday we will have a disparate variation of twenty degrees. A low of 30 and a high of 53 degrees? Essentially wear thermals in the morning and a t-shirt around noon! Saturday will be “normal” in the sense that we will only have a difference of 8 degrees, but back we go to wacky weather on Sunday with another change of twenty degrees. Besides a passing morning shower on Sunday, there will be no precipitation.

As always, click on the title for more or detailed information on the event. Most of the events were pulled from our [event calendar](#) where you can find hundreds of local area events each month. The event calendar is FREE, so if you are a local business, and not taking advantage of FREE publicity, shame on you! Are you a local business and want to sponsor this high traffic, weekend guide?
