

# 20 Things to do this Weekend (April 08 – April 10)

A few weeks into Spring and I'd love to be discussing gorgeous weather and warm temperatures, and not use the "s" word. However, this season has been an odd one and I'll have to use the "s" word and the "r" word. Friday will be very cloudy and there is a chance of rain. There will likely be snow and rain on Saturday. Sunday there is nothing forecasted in terms of precipitation, but will be milder in terms of temperature with a high of 42 degrees. No worries though, right? We're hardy New Englanders and it'll take a lot more than this to stop us from going out and enjoying our weekend!

As always, click on the title for more or detailed information on the event. Most of the events were pulled from our [event calendar](#) where you can find hundreds of local area events each month. The event calendar is FREE, so if you are a local business, and not taking advantage of FREE publicity, shame on you! Are you a local business and want to sponsor this high traffic, weekend guide? Contact [info@newbedfordguide.com](mailto:info@newbedfordguide.com) for more details. Have an event to add? Add it [here](#). Know of another event this weekend? Post a reply!
