

47 cats and kittens arriving to Massachusetts from Texas and looking for a loving home

"47 cats and kittens are being showered with TLC at Northeast Animal Shelter after arriving at the New Bedford Regional Airport on Saturday.

These cats came from the SPCA of Texas which needed to free up room as they ready for a busy spring. These cats should become available today or tomorrow after completing their state-mandated 48-hour quarantine.

To meet available cats, head to Salem during open hours Monday-Friday from 11:30am-3pm, no appointment necessary OR visit neas.org/adopt to book an adoption appointment.

The transport comes as we gear up for a full day of live, free information sessions to help people understand everything we're doing to rescue thousands of pets from across the country through relocation to Massachusetts where adoptive homes are more plentiful. Learn more about the sessions and register at mspca.org/academy."-MSPCA-Angell.
