

Acushnet Fire & EMS utilize CARES Act funds for COVID testing trailer

“If you have driven by the station the past few days you have probably noticed our newest addition.

With CARES Act funds made available by the Board of Selectmen, we have purchased an 18-foot trailer from which we will continue our COVID testing initiative during the colder months.

The trailer is set up as two evaluation rooms with heat, air conditioning and forced air ventilation. We will be adding a few items, changing the logos and rolling this testing unit out as soon as possible.

The trailer has never been used, the previous owner ordered but never used!” -Acushnet Fire & EMS Department.
