

Riverside Cemetery Tour set for Sunday, May 22

fairhaventours.com – Chris Richard Photo

Fairhaven's lovely Riverside Cemetery is the setting of an Office of Tourism walking tour on Sunday, May 22, at 2:00 p.m. It begins inside the cemetery's entrance at 274 Main Street. Fairhaven tourism director Christopher Richard will act as guide.

The cemetery was created in 1850, on land donated by Warren Delano II, grandfather of President Franklin Delano Roosevelt. It is considered to be one of the most beautiful rural-style burial grounds in the region.

The walking tour route traces the quiet winding paths past the final resting places of some of the town's most famous residents, including the Delano family tomb designed by Richard Morris Hunt, the H.H. Rogers mausoleum designed by Charles Brigham, and the grave sites of Captain William H. Whitfield, artist William Bradford, William F. Nye, John I. Bryant, and others. At each site, the guide discusses some of the history connected with the people buried there.

Nature lovers will see a wide variety of trees such as beech, black tupelo, birch, holly, cherry, dogwood, weeping willow, ash, sugar maple and more. Those interested in tombstone art will find fine examples of monuments and early slate markers bearing carvings of angels, willow trees, urns and other traditional symbols.

Copies of an 8-page Riverside Cemetery booklet created by the Office of Tourism will be available for free to all walkers.

The tour is free of charge and lasts about 90 minutes. There is no need for advance reservations. Walkers are urged to wear

comfortable shoes and to be prepared for some hills and uneven ground. The tour will be cancelled in the event of rain. Parking is allowed on the roads inside the cemetery, however two or three car lengths must be left open directly inside the gate. There are no public restrooms in the cemetery.

OPINION: One teenage girl's story about being bullied by four boys and lack of response from teachers

The names of the people within this article have been changed to protect them.

"I am trying to get this out to local media. My kid has been getting bullied and it's getting out of control and I don't know what else to do so I am trying to reach out to any media sources. This is her statement that we are filing with the police at the school tomorrow per the anti-bullying law." - Concerned parent.

Bully Statement from "Tara Green."

The first day it all happened was on Monday, April 25th. The bully "Jeremy," was asking questions about my star necklace and what it meant. It is a pentagram. I told him and his response was "So you believe in Satan?"

I responded with "It just means I believe in witchcraft." When I left school he said "bye Satan." The next day he had already told his friend "Pedro" and they both started to trip me every time I walked by. In class he would say "Shut up Satan!" or "No one likes you Satan." whenever I spoke.

The following Monday (May 2nd) he had told all his friends (Paul, Pedro, and Bill) and they started to poke me and trip me. Tuesday (May 3rd) they handed me cards that said Jesus on it and tried to stuff it in my pockets and were tripping me as I was trying to get away from them. That day I had enough so I broke down in class and cried, then I ran out and sat in a corner in the hall way crying until Mrs. Medeiros found me and walked around for a bit trying to calm me down.

On Wednesday (May 4th) he Jeremey called me Satan again and said "Don't get mad if I crack a girl." meaning he was saying he was going to hit me. This took place in front of Ms. F. and when I started to stand up for myself she kicked me out of the room. I then waited outside of the door because I was tired of being pushed around every single day and teachers seeing and hearing it and not helping.

I had told my mom the night before and she called Mr. P. that night and left him a message, I had told Mrs. Medeiros, I had tried to see Mrs. D. twice on Tuesday and Ms. F. had witnesses every time it happened from the moment it started on April 25th.

No one was stopping the bullying.

When Jeremy walked out of the classroom I struck him in the head because I didn't know how else to get the bullying to stop. I then walked away while he struggled against his friends to try and "beat me up".

When I got home he had messaged me on Facebook at 4:36 pm saying "Bitch Ass Nigga What tf gave u the right mind to hit me then run away like u scared" Laughing emoji and fist emoji.

I told my mom who then told me to block him and she sent him a message saying "Do not message Tara again. There is an anti-bully law. I have already filed a report with the police if you continue to harass her it'll just look worse for you."

He responded to her with “Your daughter hit me what part of that is good luckly she ran away i wouldve beaten the living shit outta her.” My mom immediately stopping messaging screen shot both messages and sent them to Mr. P., Mr. F., and Mrs. D. I shouldn’t have been bullied in front of so many adults for over a week and have not one of them make it stop. Instead I am being punished for trying to figure a way out of being bullied by four boys all by myself. Now I also have to worry about going to school on Friday and being jumped by one of these four boys. Because I don’t believe in the same religion as they do?

17 Things to do this Weekend (May 06 – May 08)

Will the rain ever stop? We’ve had at least 5 days straight of precipitation! I wish I could tell you that it’s going to be a sun filled weekend, but the truth is that rain will show up in varying amounts throughout the weekend. If you’re a person who likes to make lemonade out of lemons: it won’t be raining all day and night, and in most cases there will be passing showers. We’re a hardy bunch, and it would take more than some passing showers to slows us down!

OPINION: Open Letter to the Community; Turning the tide against the opioid epidemic

One way to turn the tide against the opioid epidemic (and everything else for that matter) is obviously prevention. Prevention at the high, even middle and elementary school level.

Putting in place a safety net (for many reasons) instead of throwing kids to the streets when they overwhelm us, like myself at one point, kicked out of high school because of behavior issues which stemmed from issues at home.

When we push or allow kids to fall through the cracks we open the gateway wide open to drug use, drug dealing, and gangs among other things. If we want to disrupt this pipeline, the school system in New Bedford must allow the people that know, can, and ARE WILLING to work with kids and families having problems instead of monopolizing the system to be only controlled from the inside – it isn't working.

It has been, as of late, more about numbers and business than the kids, people, and matters of the heart. I, along with many other New Bedford citizens, are willing to volunteer to make the things that need to happen, for the future of our kids and

our community, happen.

This isn't a money issue as many claim, it's a heart issue. New Bedford will be greater than ever before, when we stop letting the same people make decisions that haven't produced anything better.

We need young blood willing to take calculated risks, produce innovative ideas and strategies, implementing them and thinking outside the box to rise up. and those that can't produce any longer to pass the baton. We are out here and ready. People just don't want to listen because we are young.

The truth is many of the people who decide for our city and kids have never been there and done that. Reading about struggle in a book at Panera Bread or something. Many of us have been there and done that and know first hand what real struggle is and how to overcome. We have valuable incite and experience that could lead us into the right direction.

Lets stop talking from a business standpoint and thinking about how my organization, agency, and/or business can get the money, or the grants etc and lets start coming together to effectively meet people where they are at, find the void, and fill it.
