

Bask, Inc. Opening for Adult-Use Retail Sales in Fairhaven on Saturday

Bask, Inc. (Bask) a vertically integrated, veteran and women-led cannabis operator will open for adult-use retail sales on Saturday, February 20, 2021 in Fairhaven, MA.

Bask will be providing adults, 21 years and older, with safe access to cannabis products and cannabis education services. Bask's adult-use menu will go live at 9:00am on the **Company's Website** and doors will open at 10am. Customers will be required to pre-order through Bask's website or by phone (774) 305-4749 for the first few weeks of opening.

There will be a police detail at the intersection of Alden Road and Pequod Road and parking lot attendants will be available to direct customers with an order confirmation to the designated adult-use parking lots. Medical patients have dedicated parking spaces adjacent to the medical entrance on the east side of the building.

"We're excited to open our doors for adult-use operations on Saturday. We have been cultivating cannabis, manufacturing infused products, and dispensing to the medical market for over 3 years. We are excited to provide that experience and our amazing products to the recreational market," Stated Chapman Dickerson, CEO of Bask, Inc.

Bask cultivates over 15 unique strains of cannabis and has an exclusive line of infused products, including Harpoon Extracts, Howl's Tincture and the recently launched 1906 "Drops." All these products are only locally available at Bask's Fairhaven store. The combination of experienced staff,

exclusive products and ample on-site parking is expected to draw in cannabis consumers from throughout the region.

“As the first medical dispensary to open on the South Coast we’ve learned so much while serving the medical cannabis community for the last three years. Now, as we expand to adult-use operations, we will be providing adults, 21 years and older, with safe access to cannabis and our cannabis education services,” explained JoAnne Leppanen, Bask’s Director of Patient Education and Board Member.

“Our patients have provided a lot of great feedback about what they’ve experienced at other co-located dispensaries. We have taken that feedback into consideration with our opening plans and have divided our facility so that medical patients have their own parking, entrances, and dispensary counter separate from our adult-use operations. For three years, we’ve been dedicated to providing our patients with a certain level of service and we will continue to do so as we expand our operation,” says Dickerson.

Bask reminds customers to not trespass on the U.S. Postal Service property which is adjacent to Bask’s parking lot.

Full details about Bask’s opening can be found at the company’s website at www.cometobask.com You can browse all their recreational products by **CLICKING HERE**

About Bask

The founders of Bask are experienced medical cannabis cultivators, educators, and advocates. The team came together over a shared vision to create an environment where patients could learn and have safe access to quality products. Bask opened its doors to medical patients in February of 2018 as the first cannabis dispensary on the South Coast of Massachusetts. In February of 2020, the company moved its cultivation and processing operation to a state-of-the-art greenhouse facility in Freetown, MA in partnership with

AmeriCann, Inc.
