

Boys & Girls Club of Greater New Bedford: 21st Century Art Education Program

By establishing community partnerships and providing experiential learning opportunities our members learn how to become global citizens! This program is not just a place where members come to make ART... it's a place where they come to express themselves through the ARTS!

Members learn how to develop 21st Century Skills through participating in BGCA National Fine Art Exhibitions, by hosting annual Community Art Exhibitions and Fundraisers, and through making ART collaboratively!
