

Bristol County Sheriff's Office drill "Use Of Force" training, stopping self-harm

"Our academy participated in Use of Force training this week.

Recruits have spent time doing classwork and participating in practical lessons learning about handcuffing, OC spray, report writing, and landmark court cases surrounding use of force.

In the pictures below, recruits practiced proper handcuffing skills to be used to stabilize situations and stop self-harm behaviors. Recruits learned how to properly place handcuffs without harming themselves or inmates."-Bristol County Sheriff's Office.
