About Southcoast Centers for Cancer Care

Southcoast Centers for Cancer Care located in Fall River and Fairhaven feature the latest technology in radiation therapy and medical oncology. Highlights of the state of the art facilities include the very latest technology in radiation therapy and medical oncology, advanced diagnostic imaging, fully electronic health records, and spacious semi-private infusion bays. Radiation Oncology services include intensity modulated radiation therapy (IMRT), stereotactic body radiation therapy (SBRT), stereotactic radiosurgery (SRS) as well as High Dose Rate Brachytherapy (HDR) for Skin and Breast Cancer.

The Southcoast Centers for Cancer Care offer patients a seamless continuum of care throughout Southcoast Health System – a program that supports not only patients' medical needs, but also their emotional and social needs. The care delivered at the centers is complimented by an outstanding cancer team, which includes dedicated medical and radiation oncologists, oncology nurse practitioners and chemotherapy certified nurses, patient navigators, social workers and nutritionists.
