

New Bedford Police respond to complaints about kids playing basketball

Winter is approaching which means its beginning to get darker out earlier. But that doesn't mean you should call the police on the neighborhood kids playing basketball just because its dark by 6:30pm.

Yesterday in New Bedford, the police were called on kids playing basketball in the street, so three New Bedford Police officers took the call. Officers Tyler Viera, Eric Boulay, and Nate Goncarlo pulled up to the scene ready for action.

In a wholesome video posted on Facebook by Meg Douglas, the mother of one of the kids, she notes,

"There's def good cops out there..."

One of my neighbors called the cops on the kids playing ball outside instead of them coming and being a-holes making everyone go in the house they get out there cruisers and play with the kids ♥️ and they was deep too just having fun with the kids."

Shout out to these New Bedford Police officers who turned what could of been a quick and negative interaction into a fun filled night and memory for everyone involved...besides the angry neighbor.

CARE Southcoast Pet of the Week is Callie, Waiting ONE YEAR for a New Home

Taken from CARE Southcoast Facebook post yesterday, caught our attention. Lets find this deserving pup a new home! This weeks PET OF THE WEEK is proudly sponsored by NEW LEAF of Fall River, a locally owned social equity dispensary that GIVES BACK to the community by doing things like this.

“How does no one want to adopt Callie?!???!!! She’s perfect ?”

She has been in foster care for an entire year now with absolutely no interest, not one single inquiry.

Callie is a 7 year old large mixed breed (she was originally adopted as a lab/hound mix but she’s never had an embark done so we can’t know for sure either way! She does not look like a bully breed in person.)

She is great with people! She loves to play with toys and her people, go on car rides, walks, sunbathe and she also loves sleeping on the couch just as much. Shes equal parts absolute goof and cuddle bug. She’s pretty low maintenance! She hasn’t been destructive or loud in the home and she’s left loose every day with no issues! We’d prefer slightly older kids because she is large at 87lbs and doesn’t know her size but we have no doubt she’d love kids to play with and we’d go younger for the right home.

Callie should be the only pet. If you were very seriously interested and had cats, we can do some cat testing to see how she does. She is not leash reactive to other dogs out and about but generally doesn’t want to share intimate space with them.

Callie lost her home last year when her owner had to go into assisted living and no family could take her. Said owner had

adopted her from the city shelter, where she'd been returned too a few times due to other life circumstances, no fault of her own. She's been in foster care since and her foster parents say she is the best dog! She deserves to find her forever home so she can stay with one family for the rest of her life after so much bouncing around.

If you're looking for a new best friend to join your family, Callie could be the girl for you! This dog is meant to be a cherished part of someone's family. She comes with a lifetime of training support should she need it but she really probably won't, she's pretty low key.

Adopting a dog like this saves two dogs, her and the next dog who can take her spot in foster care.

PLEASE SHARE – she needs her forever people to see her!

Thank you NEW LEAF, they are located at 2629 South Main St. in Fall River and are open late, until 11pm, 7 days a week~

Meet Kita, the Lighthouse Animal Shelter Pet of The Week!

Can you help find this deserving love-bug a new forever home? Thank you to **NEW LEAF** of Fall River for sponsoring our pet of the week!

Here are some facts about the new potential addition to your family~

Kita ? 1 year old, 35 lb. female mixed breed. She is underweight at this time, so she will weigh more.

Kita is confident, social, and has never met a stranger! When you come visit her, she will want to say hello right away and will offer many kisses. Are her manners top notch? Honestly, nope ? But she's working on it and learns quickly!

Kita knows how to sit and we're working on down. She is very food motivated and eager to please. Kita has excellent leash manners and is ready for all of your outdoorsy adventures.

Kita likes other dogs but she is a rough player so her best playmates would be dogs similar in size to her or larger. She has not met cats but can be tested for applicants.

Popular New Jersey based “Acai Bowl” shop is coming to Dartmouth!

New Jersey’s original acai shop “Playa Bowls” will be opening soon in Dartmouth! It will be located within the Dartmouth Towne Center shopping plaza at 380 State Rd Unit 406 (what used to be “Yogurt City”). There is no official date set for the grand opening, but we will most definitely let you know as soon as we find out!

Playa Bowls offers a variety of healthy, delicious açai, pitaya, coconut bowls, smoothies, cold brew coffee, and

pressed juice with sustainability and community in mind. See the menu [here](#).

Founders of Playa Bowl photo.

The founders Robert Giuliani & Abby Taylor were inspired by chasing summer on surf trips to Panama, Costa Rica, Nicaragua, Puerto Rico, California & Hawaii. Almost every exotic surf town they visited offered their own unique version of an acai or pitaya bowl. They decided to recreate their favorite recipes with their own twist at home at the Jersey Shore.

They made a deal with the owner of the pizza shop they lived above on 8th Avenue in Belmar, NJ. They bought a blender, a patio table, a fridge & a freezer and set up a makeshift pop up stand on the sidewalk in front of the pizza shop. Fast forward nine years and they have spread to over 190 stores nation wide!

The 5 best aspects of New Bedford according to residents

New Bedford may not be perfect and sometimes can get an unfair reputation, but it's home to roughly 100,000 residents many of which quite enjoy the Whaling City. I decided to ask citizens a simple question, "What's your favorite aspect of New Bedford?" and I received a ton of answers! There was a plethora of categories but I began to notice a common theme among them, so I present to you:

"The 5 best aspects of New Bedford according to residents"

New Bedford Whaling Museum photo.

5. The History

With the arrival of the railroad in 1840 and easier access to

New York and Boston markets, New Bedford became the wealthiest city in the world. This is because New Bedford became “The city that lit the world” or to put it bluntly, we have a history of men that would jump onto wooden ships with spears and hunt massive whales to light the world. One could say that is a pretty interesting and unique history we have!

Feast of the Blessed Sacrament photo.

4. Culture & Diversity

The diverse community makes New Bedford truly special. With a huge population of Portuguese it makes sense that we host the Feast of the Blessed Sacrament which is the largest Portuguese Feast in the world! New Bedford is also one of the largest Cape Verdean communities in America with roughly 8% of our population being of Cape Verdean descent. Many immigrated to New Bedford to contribute to our whaling history which has now given us a unique and diverse culture today!

3. Waterfront

The Waterfront was an obvious answer for many. You can watch the sunrise at East Beach, the sunset at West Beach, take a walk along the ocean at Fort Taber or the Covewalk, and of course you can't forget the fishing port which happens to be the largest in America!

Zeiterion Theater photo.

2. Art & Entrepreneurship

The artistic and entrepreneurial spirit of New Bedford is really what sets it apart from similar cities. From the performing arts at the historic Zeiterion theater to the several art galleries and displays in downtown, we have become a destination for artists and creatives. Along with being a creative hub, many residents expressed their appreciation of how many locally owned businesses we get to enjoy in the area. Downtown as well as the Kilburn Mills host an insane amount of different local businesses, something you don't see in every city!

Facebook photo.

1. Food

What happens when you take a diverse, entrepreneurial city with rich history, and mix it with a huge fishing port? You get some crazy good restaurants! Easily the #1 answer I received from residents was the “food scene” and quite frankly, I have to agree. There are so many things I could say about the Food in New Bedford, from authentic Portuguese to the “fresh of the docks” seafood. I’ll leave you with this, you won’t find an Applebees in downtown New Bedford!

Dunkin releases Pumpkin Spice the earliest date ever! Is August too soon for fall flavors?

I must say it's always exciting when coffee shops release the almighty "pumpkin spice" flavors, but is mid August really the new start of Fall season? Not long ago Starbucks & Dunkin would release the Fall flavors in mid September to kick off fall just as they do for the summer, winter, & spring flavors.

Companies are taking advantage of the growing demand for pumpkin spice by releasing them earlier and earlier each year. 7 Eleven released its pumpkin spice coffee this year on August 1st!

Dunkin Donuts photo.

Dennis Phelps, 7-Eleven's senior vice president of merchandising noted, "We decided to break out the pumpkin a little bit early this year, It may not quite feel like fall outside yet, but it sure can taste like fall as we enjoy the first Pumpkin Spice Latte of the season."

Dunkin's August 16th release this year is the earliest to date, beating out last years record by 1 day. You can see the full menu [here](#).

Although I'm guilty of getting myself a pumpkin spice iced coffee from Dunkin the day I hear its available, I must ask the question:

When should "Pumpkin Spice Season" officially kick off?

I say we just make a "national pumpkin spice holiday" in mid September to kickoff fall season before we end up seeing fall decor on the 4th of July!

Dunkin Donuts photo.

BOSTON, MASSACHUSETTS (August 16th, 2023) – The following statement was released today on behalf of The Pumpkin Spice Signature Latte (“PSSL”), through the Dunkin’ Social Media Manager located in Canton, Massachusetts in response to questions flooding the @dunkin comment section:

“I’m back.”
