

COVID-19 Vaccine Clinic to be held at Cape Cod Community College for all Veterans

The VA Providence Healthcare System will be providing COVID-19 vaccinations to all Veterans and their spouses this Saturday, April 10, 2021. The clinic will be located on the Cape Cod Community College campus 2240 Iyannough Rd, West Barnstable, MA. The clinic will run from 9am to 1pm.

“The VA has expanded the vaccination criteria and we are pleased to offer the vaccine to all Veterans and their spouses.” said Larry Connell, Medical Center Director, VA Providence Healthcare System. “There are many unenrolled Veterans on Cape Cod and we want to ensure we get them vaccinated. We will be giving out the Janssen vaccine which will not require those who come to the clinic to come back for a second dose.”

Veterans who are not enrolled in the VA Healthcare System will need to bring a copy of their DD214 and a picture ID and fill out a 1010EZ enrollment form. This form can be found at <https://www.va.gov/vaforms/medical/pdf/10-10EZ-fillable.pdf>. Forms will be available on-site for those who cannot bring it with them.

The VA Providence Healthcare System continues to vaccinate Veterans, Monday to Friday from 8am to 2pm at the main campus in Providence. Additional vaccination events are being planned, so if you cannot make this clinic there will be others coming soon.
