

# **Litterbugs may ruin Dartmouth Public Schools participation in textile program**

"Dear Community: It is with great frustration we post this picture. This is Cushman School.

Unfortunately, some people have decided our textile bins are a good place to dump trash. These bins are for bagged textiles only. The district receives funding which is used for special activities for students. It is sad to see such a great program being threatened because it is being abused.

We will be forced to eliminate our participation in this program if this continues.

Please help us maintain this program by abiding by the rules."-Dartmouth Public Schools.
