

Massachusetts State Police seize psilocybin mushrooms, THC, pills, cocaine, marijuana after traffic stop

“Last month, in the area of Preble Circle in Boston, one of our members initiated a traffic stop due to multiple motor vehicle infractions. As our Trooper approached the vehicle, the operator made several suspicious movements, and when questioned provided our member with incomprehensible and strange answers to standard questions. Immediately, the Trooper requested backup to their location and removed the driver from the vehicle due to safety concerns.

Throughout the investigation, our Troopers located a large sum of cash, suspected psilocybin mushrooms, two boxes of THC products, a variety of pills suspected to be class B and class C narcotics, clear vials containing white powder substance suspected to be cocaine, three mason jars containing suspected marijuana, a scale with brown and white residue, and a large amount of distribution-related paraphernalia including empty vials and baggies.

The suspect is now facing charges of trafficking cocaine, possession with intent to distribute class B, possession with intent to distribute class C, possession with intent to distribute class D, and failure to stop at a stop sign. The Association would like to commend the hard work of our members from the H-6 SP South Boston Barracks!”-State Police Association of Massachusetts.
