

Micro Technology Solutions Inc. invites the community to celebrate 20 years in business.

Last year Micro Technology Solutions Inc. expanded its business and relocated to Fairhaven, bringing with them 20 years of experience in IT and E-Business operations. Since 1998, they have offered onsite services to the greater New England area. MTSi provides expert care to companies in Massachusetts and Rhode Island; including Westport, Dartmouth, New Bedford, Fairhaven, Providence, East Providence, Cranston, Taunton, Stoughton, Braintree, and many more.

As they enter their 20th year they are extending an invitation to the Southcoast community to come celebrate with them. You're invited to meet the staff, ask questions and get a behind the scenes look at how they help local companies successfully navigate an ever changing technological landscape. Join them at the corporate headquarters located at 132 Alden road in Fairhaven, MA on Friday March 16th from 3 to 5pm for conversation, appetizers and a raffle! RSVP on **eventbrite** and receive 10 Raffle tickets that can be used at the event.

If you're a local business considering their services you should hear what their customers have to say:

Micro technology is a great company for all of your computer support technology. Whether you have them to host your emails, off-site storage or just for PC upgrades and support, they do it all. We have found the support team very responsive whenever we had a problem with our PCs or server. If there is someone who is having trouble determining a problem, they will resource another tech's assistance in order to resolve the

issue. Very thorough, very responsive. We've hired other companies prior to MTSi **and none of them can compare to their service.** We are 100% satisfied customer! ~ Donald J. Medeiros

"I've worked with Jesse Cabral (CEO) and just about every one of his Technicians for over 10 years now. To describe their whole office personnel, and field techs, they are all professional in their approach with customers and work associates alike; respectful, courteous, and quite competent in all they do, just as a few adjectives to describe what you can expect.

If anyone has a need for their services, they are sure to satisfy your needs and more. That says it all." ~ David Tremblay
