

# Learn the tricks of the photography trade with Miss Z Photography's Beginner DSLR Photography Class

Mom, wife, and award winning maternity, baby, child and family photographer, are just some of the “shirts” that Abrah Zion of Miss Z Photography wears.

Recently she was proud to announce that she won best photographer in the “Best of the Best of the Southcoast” for 2017, which surely came as no surprise to anyone. If you are a fan of New Bedford Guide, you are no stranger to the the passion and talent that is the norm for “Miss Z.” You’ve seen the images that are as memorable for their content as they are for the skill behind them – adorable, happy, pleasant babies, stunning women in different stages of pregnancy, newborns, couples and families.

Seven years ago Abrah's passion for photography became a reality with the verbal, mental and financial support of loving parents, Saralee and Harvey Salk. Since then she has provided SouthCoast residents with professional, world class pictures and service, not to mention, images that will provide a lifetime of memories. There's no price that can be put on that – you will be visiting and revisiting those images and passing them down to subsequent generations and sharing them with friends. You want nothing but the best and Abrah is incapable of doing anything less than superlative.

In addition to the services that she provides, she also shares her skills with those who have an equal passion for photography. She periodically offers instruction where you can field questions, soak up advice, and pick up tricks of the trade. You don't have to be a professional or have a career in photography to benefit – just desire to take better pictures.

Does red eye seem to pop up often? Faces off center? Images blurry? Spending a few hours with the best photographer in the region will improve every aspect of your ability or lack of

it. A recurring course due to its popularity, is the Beginner DSLR Photography Class which takes place over two weeks. Registration is currently being accepted for the next two classes which takes place November 13 and November 20 (<https://www.facebook.com/events/102143993872739/>). You can sign up for the classes on her website **here**.

“We will cover the exposure triangle – speed, aperture (“depth of field”) and ISO. We’ll go over white balance, composition and lighting. There will also be an overview of night photography. Each student will also be invited to a private Facebook group where you can continue to ask questions and get support long after the class is finished.”

Abrah’s passion is contagious and she has a natural ability to translate that passion in an easy to understand way which can only come from knowing a topic in significant depth. You can have any and all your questions answered as she evaluates your

ability, corrects your good and bad habits, and imparts her technical expertise. It's a experience you won't want to miss for pet, amateur and professional photographers alike!

You can purchase your class here: [squareup.com/store/miss-z-photography](https://squareup.com/store/miss-z-photography). You can browse through past images and spotlights here.
