

# **More flights available from New Bedford Regional Airport for Summer 2019**

The Bedford Regional Airport announced that long-time airline Cape Air has added to their Summer/Fall schedule, running from June 21 to October 15 of 2019.

The Airport will see a total of five daily departures to the islands of Nantucket and Martha's Vineyard. Fridays will receive one additional departure, for a total of six departures on Fridays. The 36 weekly departures are a welcome addition, designed to serve the growing demand of commercial air travel within our region

The islands of Martha's Vineyard and Nantucket are also host to seasonal connections with JetBlue Airways and United Airlines, among others. Cape Air has served the New Bedford Regional Airport for nearly three decades, and the airport is proud to maintain its efforts towards commercial service expansion.
