

# Multiple shots fired on Roosevelt Street in south end of New Bedford

There were 5-6 shots fired on Roosevelt Street in the south end of New Bedford around 4pm. A witnesses reports that one man was bleeding in the street. Two cars were seen fleeing the scene before New Bedford police arrived.

This video shows a green car with at least one bullet hole and police marking locations where blood was on the street.

Another witness reported that multiple guys "shot someone's car and then fired shots in the air which then hit my house. If someone was in my living room sitting on the couch they would've been hit."
