

National Grid to Host Virtual Event On July 14th for Fall River & Somerset Residents

National Grid invites project neighbors to a Virtual Event on July 14, 2022, from 6 to 8 P.M., to learn about the N12/M13 Transmission Line Upgrade Project. During the Virtual Event, community members will have the opportunity to learn about the project, talk to and ask questions of the project team. Construction, engineering, permitting and other subject matter experts will be present during this event.

Keeping the lines of communication open is an important part of our work in the community. This event is designed to give neighbors an opportunity to learn more about the project, ask questions, and provide comments.

The event will be virtual, a presentation will be made and followed by a Q&A
