

Three New Bedford Beaches Closed Until Thursday

The New Bedford Health Department has announced that East Beach located along East Rodney French Boulevard and West Beach located along West Rodney French Boulevard, as well as the beach inside Fort Taber Park have been closed to swimming today and tomorrow, Wednesday, August 28, 2013.

Significant rainfall over the last 24 hours has raised the threat of elevated bacteria levels at these locations. City officials have closed New Bedford's beaches to swimming as a precautionary measure to protect public health.

The water at these beaches will be tested daily until acceptable water quality levels are obtained and swimming can resume. Testing will begin on Wednesday morning, August 28, 2013. If bacterial levels are within acceptable limits at that time, the beaches will reopen on Thursday, August 29, 2013. Further updates regarding openings and closures will be made as water quality results are received.

Additional information is available by calling the New Bedford Health Department at (508) 991-6199.
