

# City of New Bedford asking for public input on W. Rodney French Blvd. reconstruction project

"The City is preparing for a road reconstruction project on West Rodney French Boulevard, from Cove Road to the hurricane barrier street gate, with support from the MassWorks Infrastructure Program.

As part of the public input process, the City's Department of Public Infrastructure is hosting a design information meeting for members of the public to see the scope of proposed work and provide feedback on the current redesign.

The virtual public meeting is from 6 to 6:45 p.m. Wednesday, Aug. 24. Register for the meeting [here](#).

Mayor Jon Mitchell and local elected officials joined state leaders at Kilburn Mills in December to announce the project."
