

New Bedford resident warns others about Comcast scam going around

"Good evening if anybody gets this email in their Comcast email it is a scam.

I accidentally clicked on it entered my information luckily I have two-step authentication. I've already changed my password and I contacted Comcast and confirmed it's not a legitimate email.

If you enter your username and password in response to this email please change it immediately. They will have access to your name, address, phone number, and credit card information and be able to make purchases on your account and make changes. Please don't be fooled like I was! "-Ellery Reynolds.
