

New Bedford woman issues warning after boyfriend gets shot in face while on motorcycle

"I'd like to stay anonymous, please.

I am writing you to inform people in the area to be on high alert! My boyfriend just came home from work around 10 PM, hysterical. He almost crashed his motorcycle on Rt. 18 after a car came up from behind him and shot him in the face with a toy gun.

It was a white compact SUV type car with two occupants hanging out the window, wearing masks, shooting the toy. He's unsure if it was a gel bead or an elastic. He was going about 70 mph when it happened...

I can't imagine anything lower than almost killing somebody for a joke. Not that motorcyclists needed another thing to be careful of."
