## New Bedford's six worst drug dealer infested streets

New Bedford Guide is building a database of all those charged in New Bedford with distributing/trafficking hard drugs like heroin, fentanyl, cocaine, crack, and other hard drugs. We will use the data to display where the drug dealers live, who the landlords are and then make the data available to the public. The goal is for landlords to be alerted to these arrests so they can act by removing the dealers from their property or not rent to them in the future.

Currently, we have all the arrests made from 1 January through 30 April of 2019 and some of the data imported for May. To date, the New Bedford police department made 75 distribution/trafficking arrests with 18 of them being fentanyl busts. Fentanyl was responsible for 89% of all the overdose deaths in Massachusetts in 2018.

Nearly one-third (29%) of those arrested for distribution/trafficking of hard drugs lived on six streets in New Bedford:
