

OPINION: How many flat tires and broken suspensions is it going to take before the city does something about these potholes?!

The following was sent to us by a fan:

"This one is on Walnut St. and about 3 months old – I'm sure the mayor has seen it. Where is all our money going? The money they steal from us!! They fine you for everything, you have to pay to go to the beach, can't park on both sides of the street when the sweepers come through, where are you supposed to put your car?

All this money but you can't fix a pothole!? Anyone else fed up with this bullsh**? Taking taxpayer's hard earned money!!! Please share!" -Teo Braga
