

# **OPINION: Resident disgusted with small city dump in front of house**

"I am a little disgusted with this store and how they have our city looking like this. It's very disconcerting that they don't have a dumpster for their recycling. It's also blocking the doorway to the apartment building in the photo.

The apartment that they did this to is on County Street. It's sad – they do this weekly. It's a safety issue for the people that have to find a way to get by this dump!"
