

The Free PACE Health Access/Navigator Program

Miss open
enrollment?

YOU CAN STILL APPLY FOR HEALTH INSURANCE!

Although Open Enrollment for Health Insurance has ended for this year, there are still many people who need to reapply for their health insurance. These folks will be receiving letters from MassHealth with dates they should apply and dates that tell them when their health insurance terminates or ends.

For people who have never applied for health insurance may be eligible to apply outside of the Open Enrollment period and they should call our office to find out if they qualify. For people who have had changes in their personal or family situations; like losing a job, losing a spouse, divorce or the birth of a child in addition to other life changing events, should also call our office to find out if they qualify for health insurance.

The Free PACE Health Access/Navigator Program has trained and certified State Navigators on hand to assist people who are looking for Health Insurance.

Call PACE at 508-999-9920 for an appointment or for more

information.
