HOW IT WORKS:

Your business is the “sponsor” of that live video. Your business will be named and linked, along with any other promotional tag or information you wish. We also link your website and social media page – which also helps to grow YOUR following!

E.g. “This video is sponsored by Seaside Bank, or Attorney John C. Smith, or ABC Plumbing,” followed by brief content, “Looking to make a smart investment? Stop in anytime for...”

You can tell us what you want to sponsor – or trust us and let us decide.

Want to reach families? Consider sponsoring our live streams of school athletic games. Is your business in a specific location? Consider a weekly live stream of a local pet shelter. Don't have a preference? We'll have fun deciding. We have lists of events and great things to cover.

Shared to our 78,000+ followers, you get incredible exposure. It also gives your business a ‘feel-good’ image, and shows that your business is local, values community, and cares. Plus, our live videos remain online. You have full access to share/use these in any way you choose, which is excellent for your own personal marketing!

We work with you to determine your goals and a best plan of action. Plus, we don't require contracts or commitments – you have no reason not to simply try it!!
