

New Bedford man fed up waiting two months for city to clean street, so does it himself

"I have been trying to get the city to sweep a street for almost two months. I was told by city councilors and the mayor to use the "SeeClickFix" app. The app works great...the people responsible for getting the work done is another story.

So I got fed up and did it myself. Joe Lopes, where do I send the bill?" -Sean Vieira.

Street Sweep Request

16 Mosher St New Bedford 02744, United States

Still not swept. No cars are in the street at the moment. Great time to get it done

I'm new to this app, iv gotten fed up living amongst garbage, run down abandoned houses, patch work sidewalks & now ugly gas meters outside infront of our houses. House taxes gone up 😞. Where does the money go? Not to S.End it seems. Not even for simple street sweep. When there is one, cars are parked everywhere. Soz I just had to vent
