

# Second New Bedford resident concerned about illegal dumping at south end duck pond

ATTENTION: RE: the south end duck pond. People should really think twice before illegally dumping!

A little education to the ones that don't know, this type of dumping hurts the wildlife and could also hurt a human. Items dumped:

- car battery
- metal firepit
- garbage
- tree stumps with metal fencing sticking out
- styrofoam pieces
- cardboard
- nips
- balloon string.

Please think twice before dumping! This has already been reported for cleanup of the big items that I couldn't lift and dispose of properly myself"-Signed, Concerned Anonymous Resident.
