

SEMAP Announces Next Twilight Workshop – Gardening

Registration is open now.

Join the Southeastern Massachusetts Agricultural Partnership as we continue our 2015 Twilight Workshop Series! This workshop will take place amid beautiful gardens at Friends Academy in Dartmouth, MA on Monday, June 29th from 6pm – 8pm. Steve Walach will offer a tours of the Friends Academy garden and an informative workshop for growers. Participants will learn about triple-cropping and take away a fertility plan and ideas for crop rotations. Those attending will also practice with tools not typically used by home gardeners and will try setting up a bed with hoops and row cover. With yields of over 5000lbs of produce per year, this garden is a perfect example for home growers!
