

Main entrance of St. Luke's Hospital to close temporarily on September 3

Beginning Monday, September 3, the main entrance of St. Luke's Hospital, located at 101 Page St., will be closed for renovations. The entrance is expected to be closed for approximately three weeks.

St. Luke's Hospital asks all patients and visitors to enter the hospital via the Emergency Department entrance. Patient and visitor parking lots will not change. Signs will provide directions to the Emergency Department entrance, where free valet service will be available for patient and visitor convenience.

Additional staff and volunteers will be available to assist with way-finding and a temporary information desk will be available on the mezzanine level of the hospital to provide assistance.

For the safety of all pedestrians, we ask that motorists drive with elevated caution on Page Street.

St. Luke's Hospital apologizes for any inconvenience this temporary closure will cause and thanks patients and visitors for their patience and understanding.
