

# Starbucks New Bedford will soon be receiving their first customers

Back in August, we shared the announcement that a Michigan-based commercial real estate investment and development firm called ALRIG USA Development LLC applied for a site plan review from the City of New Bedford's planning board.

In that short period of time – a matter of a few months – the necessary permits and licenses were approved and the building was erected at the proposed site at 8 Mitchell Street and 157-161 Coggeshall Street. The location encompasses Petro-Mart, Touchless Car Wash, and what was once a Subway restaurant.

This store will employ around 30 people and will feature a drive-thru.

As the last contractors finish their jobs and employees receive their training, there are simply a few inspections that need to be passed before the cafe opens.

## PRELIMINARY WEST ELEVATION

SCALE: 1/8" = 1'-0"
