

Tyler Clark joins New Bedford's Global Learning Charter Public School as Grade 5 ELA Teacher

"Global Learning Charter Public School (GLCPS), a tuition-free public charter school that currently serves 500 students in grades 5-12, recently announced that Tyler Clark has joined the professional staff as a Grade 5 ELA Teacher.

A resident of Swansea, Clark previously worked as a 7th grade ELA teacher at the Thompson Middle School in Newport, RI, as a 5th grade teacher at St. Francis Xavier School in Acushnet, MA and as a 3rd grade teacher at St. Stanislaus School in Fall River MA.

Clark earned a Bachelor of Arts degree in English and a Master of Arts degree in Teaching English from the University of Mass Dartmouth. He was named teacher of the month for the Diocese of Fall River in February of 2021 and was nominated for the last school year as well. In addition to teaching 5th grade at GLCPS Clark teaches a card magic club for students after school.

"We are pleased to welcome Tyler to our professional staff," said Dr. Stephen Furtado, Executive Director of GLCPS. "He is a dedicated and talented teacher who brings great energy into the classroom. We value his contributions to our school community."

About Global Learning Public Charter School

Open to New Bedford residents, Global Learning Charter Public School (GLCPS) is a tuition-free public charter school that currently serves 500 students in grades 5-12. Launched in 2002 as a Horace Mann charter school, GLCPS became a Commonwealth charter school in 2006. In order to generate a culture of personalization, the school setting and class sizes are deliberately small. Students, faculty and administration know

each other well and teachers are able to tailor the curriculum to the needs and level of each student.

GLCPS offers an exciting and challenging interdisciplinary curriculum that follows and builds upon the Massachusetts Curriculum Frameworks. Students learn to work collaboratively in teams, use technology meaningfully in their coursework, strengthen all elements of their communication skills, as well as develop the necessary skills to become engaged and ethical contributors to a global society. GLCPS capitalizes on the exceptional resources of the region (for example, marine sciences), and ties these resources to their curriculum and instruction. For further information please contact Amey Bissonnette, Director of Development, at 508-991-4105 or visit www.glcps.org.
