Reminder on the importance of vaccinations, especially during winter months: Vaccination levels in the region remain low, and daily case rates remain high. Getting vaccinated for COVID-19 is not only about protecting yourself – it's also about protecting your family, friends, and community. Vaccination is critically important during the winter months, when indoor gatherings can lead to super-spreader events, clusters, hospitalizations, and severe illness among people who are unvaccinated.

State Resources for Vaccine Records, Locations
The Massachusetts Department of Public Health has free online services to find your personal vaccine records and local vaccination locations, including many pharmacies.
Access your vaccine records at https://myvaxrecords.mass.gov/, and find local listings at https://vaxfinder.mass.gov/.
