

Wareham family seeks public's help and finding missing autistic man likely in New Bedford

"This is my son Peyton. He is autistic and has Mood disorder and ADHA. He is 20 years old, 5 ft 6 in, blue eyes, has a wolf tattoo on one arm and another tattoo not sure what it is, on the other arm. Both on the upper arms.

He left angry last night and managed to find his way to the Woods of Wareham. He left there at 6:00 am and hasn't been seen since. Please let me know if you see him anywhere. He has a black "Sons of Anarchy" zip-up jacket on and dark basketball shorts, black Nikes. He may be trying to get to New Bedford.

Please share to any New Bedford pages, I am not a part of any but will ask to join those groups until he is found. No money, no wallet, he ditched his backpack so it's just him."-Brooke Forester.

If you see this young man, please contact Wareham Police at (508) 295-1212 or his mother on her Facebook page.
