

Wareham Fire Department responds to 80 service calls since Friday morning

"Since Friday morning at 8:00 A.M., the Wareham Fire Department has responded to 80 calls for services.

These calls included house fires, a stove fire, motor vehicle accidents, fire alarms, CO alarms, mutual-aid responses, medical calls, and multiple utility related emergencies. These calls were handled by our dedicated career and call firefighters working together as one team. We were assisted by mutual-aid departments, as needed, and we will always be there for them when called upon.

In addition, we would like to recognize the communications personnel, who coordinated these responses while answering and assisting people through-out the day and night.

Ken Jordan, Lydia St Laurent and Mikayla Young did an outstanding job with the added activity. Often these folks are overlooked, but they are critically important to the public safety mission.

Attached are a few photos depicting some of the action this weekend. The Wareham Fire Department is here for you 24/7/365!" -Wareham Fire Department.
