

# Warwick Police Department shares Rowan's story, 2-year old with very rare form of pediatric cancer

"Have you heard Rowan's story?

In December, 2-year-old Rowan Shaw was diagnosed with high-risk metastatic neuroblastoma a very rare form of pediatric cancer. This little fighter is currently undergoing a very aggressive treatment. Both of his parents are out of work having to care for him.

The Warwick Police Department is working on ways to help the Shaw family through this fight.

To start, we have had #FightForRowan window decals made up. These are pictured below and will be in shortly, at which time they will be made available to purchase for \$10.

Please email Sgt. Higgins at [matthew.higgins@warwickri.com](mailto:matthew.higgins@warwickri.com) if interested.

You can find more information on Rowan through their Facebook page Fight For Rowan." -Warwick Police Department.
