

# After woman loses her wallet, young New Bedford man restores her faith in humanity

"Yesterday my wife lost her wallet at Stop and Shop with all the credit cards documentation and a good amount of money.

After going there and talking to a few people and making a few posts we kind of accepted that the wallet was lost, money and everything in it. An one hour ago my wife got a phone call from somebody in his 20s saying that since yesterday he was trying to reach her because he has her wallet! Her license had the old address so today he insisted on going there and he got her phone number that our old landlord.

All the money was there, all the documents were there, and all of this from a young kid that could simply have taken the money and put the wallet in the trash.

I was so excited that I forgot to ask for his name so maybe he's a member of this page and see this. Thank you from the bottom of my heart! You saved us a lot of work to replace all of that and the money.

Edit: After talking to him and having his permission here's his Facebook page. Thank you so much!"-Nuno Peixoto.
