

# Woman seeks New Bedford community's help identifying hit and run suspect

"Hi guys – I don't normally post things like this but I could really use the help! Please feel free to share.

My red Honda HR-V (my pride and joy) was backed into while parked on Clay Street in #NewBedford on Sunday, July 31st, between 1:20-1:30pm. A police report was filed with the New Bedford Police Department. If someone recognizes the car or this individual, please contact the NBPD or my email CM.F9@outlook.com.

I really appreciate any help with this!! It's going to cost me a PRETTY penny and it really sucks. The car in question appears to be an older (possibly 2012) Chevy Equinox."
